Copy No. 4

26 August 1953

**MEMORANDUM FOR: Secretary, Intelligence Priorities
Committee**

SUBJECT: IPC Targets

1. In response to the arrangements for the review of IPC Targets, the CIA substantive offices have prepared their targets for Communist China.

2. At Tab A are economic targets. At Tab B are scientific targets. In the latter case, they are submitted on the thesis that none of them are of sufficient importance to warrant the establishment of operations specifically for their achievement, but it is believed that they may be collected against as targets supplemental to major targets. You may feel that this list should not go to the IPC but instead be the subject of joint discussion between FI, OSI and myself along the lines of the program we have developed for ORR. Please let me know how you feel about it.
